

Deutscher Evangelischer Kirchentag
Nürnberg 7.-11. Juni 2023

NOW is the TIME! Hope. Do.

Kirchentag is unique. As lively as one would wish church to be. A colorful festival of faith, culture and music, a platform for critical debate, a place to meet and a time to discover and celebrate the diversity of religions. The German Protestant Kirchentag sees itself as a free movement of people brought together by faith and commitment to the future. It is institutionally independent of the Protestant churches.

Five days of program in Nuremberg

from which participants can choose. Important topics of our time will be discussed, questions about peace and justice, climate change and human dignity will be asked, discussions between the denominations will take place and we will celebrate together. Here, controversial discussions, struggles, and openly naming what is needed for a good life take place.

The Kirchentag always begins on Wednesdays with the Evening of Encounter. A colorful festival in the city center where churches from the region present themselves - with music, cabaret and culinary delights. From Thursday to Sunday, there are workshops, exhibitions, concerts, church services, panel discussions and much more on the program.
